

Complete Business Solution

Tally has been accredited by the **'Institute of Chartered Accountants of England & Wales'**. The reason: it employs state-of-the-art technology to zero in on individual business needs. Tally will quickly become your crucial office accessory. You decide what works best for your company and Tally does the rest.

What makes Tally the best	Tally Technology
<p>Simplicity: Tally is not a computerized accounting package but is Accounts on computers</p> <p>Power: The power of on-line Management information helps one in keeping the business under complete control</p> <p>Flexibility: Tally mimics the human thought process, i.e. Tally can adapt to any business needs rather than the user trying to change the way his business is run to adapt to the software.</p> <p>Real Time: Tally updates all reports as and when you enter transactions with no back-end or day/period-end process (posting).</p> <p>Drill-Down: Tally's reports are dynamic (and not just print-previews) and you can drill-down or zoom-in to the details right up to the source documents.</p> <p>No Codes: Tally was the first accounting package in the world to introduce the No Codes concepts for Accounts.</p>	<ul style="list-style-type: none"> ✓ Simple and Rapid implementation ✓ Data reliability with internal backup and restore ✓ Data Security with user defined security levels ✓ Archiving of previous financial year data ✓ Import/Export of data ✓ Print Preview ✓ Runs on Windows 98/NT/Me/2000/Xp/2003/Vista networks ✓ Requires Pentium IV, 2GB with 50MB free hard disk space

Hardware Recommendations

Server: Pentium with 4 GB RAM or above, using 1GB network interface card with Windows2000/2003 installed. Please use 1GB managed switch hub connected through UTP cable on RJ 45 Category 5/5e connectors.

Workstation: Each workstation where you run Tally should be a Pentium IV or above with 2 GB RAM or above with Windows98SE / Windows Xp SP2 / Windows Vista installed.

Awards and Accolades for Tally

Tally bags prestigious IT National Excellence Award 2007

Tally has won the prestigious IT National Excellence Award 2007 instituted by All India Association of Information Technology, Indore. Tally was honoured with the "Special Award" for its excellent performance in the IT sector and for its outstanding contribution in the IT Training and Education.

360 Magazine's Golden Rhino Award 2004, 2005, 2006, 2007

For four consecutive years, Tally has won the Golden Rhino Award presented by 360 Magazine.

Tally wins again in the Middle-East!

Tally Solutions has won the 'Choice of Channel Award' for the 'Best Channel Program' voted by the Channel in the Middle-East and conferred by the prestigious VAR Magazine for Middle East & Africa. The awards are based on, among other criteria, reseller channels' vote for their favorite companies and products. VAR Choice of Channel Awards was launched last year during GITEX 2006 (Sept.16th issue) to announce the IT Channels' most liked companies and products.

Franchise Award for best in Education Coaching & Training, 2005, 2006

Tally's Education and Training Business division has won the prestigious Franchise Award, for two years in a row, in the Education – Coaching and Training category. This award, instituted by Franchise India Holding Ltd., is given in recognition of excellence in franchising, licensing and business development.

VARIndia Star Nite Award for Best Financial Software, 2006

Joining the top performers of the IT industry, across 50 plus categories, Tally was selected to receive the VARIndia Star Nite Award for Best Financial Accounting Software, for the year 2005-06. VARIndia is India's frontline IT magazine.

Bhoomi Brand Awards 2005, 2006

The Bhoomi Brand Awards are presented annually on India's Independence Day, by 360 Magazine, to recognise the contribution of Indian IT manufacturers. Tally was chosen to receive this award for two consecutive years, in 2005 and 2006.

PC Quest User's Choice Award 1994 - 2005

12 times in a row, our customers have voted Tally as their preferred business accounting software, making Tally the PC Quest User's Choice, time and again. In 2004, Tally's User Preference Index (UPI), was 100, as compared to the UPI of just 4, for the second choice.

Tally wins **the PC World Techies Awards in 1997, 1998 and 1999**, and have received **CHIP's Best Performance and Best Value awards**.

Best Accounting and Inventory Management Software for the SMB Sector - Window's Magazine

In 2005, Tally Solutions was selected as the "Editors Choice" for Best Accounting and Inventory Management Software for the SMB Sector, in the Middle East.

CRN's Most Admired Company perception audit

Tally won the Gold Award (for Financial & Accounting Software) in CRN's 'Most Admired Company' perception audit. This audit was the result of 4420 independent responses from members of the Indian IT channel, across 49 cities.

New features in Tally 9 international upgrade

Speed and performance

Tally9 has improved the speed of loading the company data as well as reports considerably on networks.

Concurrent Multi-lingual capability

You can use Tally in English or Bahasa Malaysia interface, view reports and send invoices to your customers in either language, all at the press of a button

Malaysian Service tax and GST ready

Tally9 has built in Malaysian service tax register and return forms. Tally9 is VAT and GST compliant for UK, India and Singapore. When Malaysia introduces GST you will already be GST ready and you need to pay only for the required statutory report formats when they are ready.

MS Excel Compatibility

You can now export any report from Tally9 directly to MS Excel (version 2000 and above).

Soft Lock

- Tally9 no longer supports the hardware lock and uses a soft lock with the following benefits,
- Higher level of security and avoid the possibility of theft and damage
- Frees up the parallel port, which you can use for printers or other devices.
- You can always "Surrender" the soft lock license and "Activate" it again to use Tally on a different computer.

Synchronisation

Synchronise the data across your various branches to the main office using TallyServer and TallyClient feature so that you have up-to-date information from all locations at your fingertips.

Budgets

- Multiple Budgets setup: Create multiple budgets for both the Groups, Ledgers and Cost Centres
- Compare any budget to actual amounts

Order Processing

- Sales and Purchase Order entries: Enter and print Sales and Purchase Orders and enter Delivery Order (or Sales Invoice) and Goods Receipt Note (or Purchase Invoice) against them.
- Pending Sales and Purchase orders reports: Generate pending Sales and Purchase order reports summary by Stock Groups/Categories/Items or details by Stock Item, by Customer/Supplier.

Voucher Classes

- Enter vouchers in 'single entry' mode rather than in Tally's traditional 'double entry' mode.
- Exclude/Include Ledgers under particular Groups in voucher entry ledger lists.
- "Forex" class which simplifies the Foreign Exchange Gain/loss entry.

Single entry voucher entry

Enter Payment and Receipt vouchers in single entry mode enabling faster data entry.

Splitting of financial years

Tally's flexible period-less accounting permits entry of data for any number of years. However, presence of old data in cases where they are voluminous causes greater

overhead on the system. Splitting financial years enables you to retain most benefits like yearly comparisons while overcoming this overhead.

Invoice Entry Mode for Purchases, Credit Notes and Debit Notes

Enter Purchases, Credit Notes and Debit Notes in invoice format that makes data entry easier and faster.

Group vouchers

Display and print list of all vouchers for a selected group

Credit Limits

Fix Credit Limits to Customers and let Tally check customer's available credit during entry of Sales Orders, Delivery Orders and Invoices.

Profitability by Products and invoices

- Stock reports showing Gross Profit on each Stock Item
- Invoice registers showing Gross Profit on each invoice

Stock Ageing

Age stock items by date of purchase using user-defined ageing periods

Price Lists

- Create multiple Price Lists and assign Selling Prices and Discounts for each item, based on Quantities sold.
- Security Level control to prevent changes to the prices used during invoicing.

Context sensitive help

Click help to get descriptive help based on the menu or report you are in.

RJ Info Matrix 'Malaysianisation' of Tally

- Integrated, user-definable Statement of accounts with options for Balance brought forward / open-item methods and day/month ageing
- Do Bank reconciliation by filtering on cheque numbers.
- Address lists for customers and suppliers
- Option to select "Start ledger" and "End ledger" while printing ledger reports
- Final general ledger printing with option to print without customer and supplier ledgers.
